

Hakmeh Industrial Service

Your Partner in Industrial
Excellence

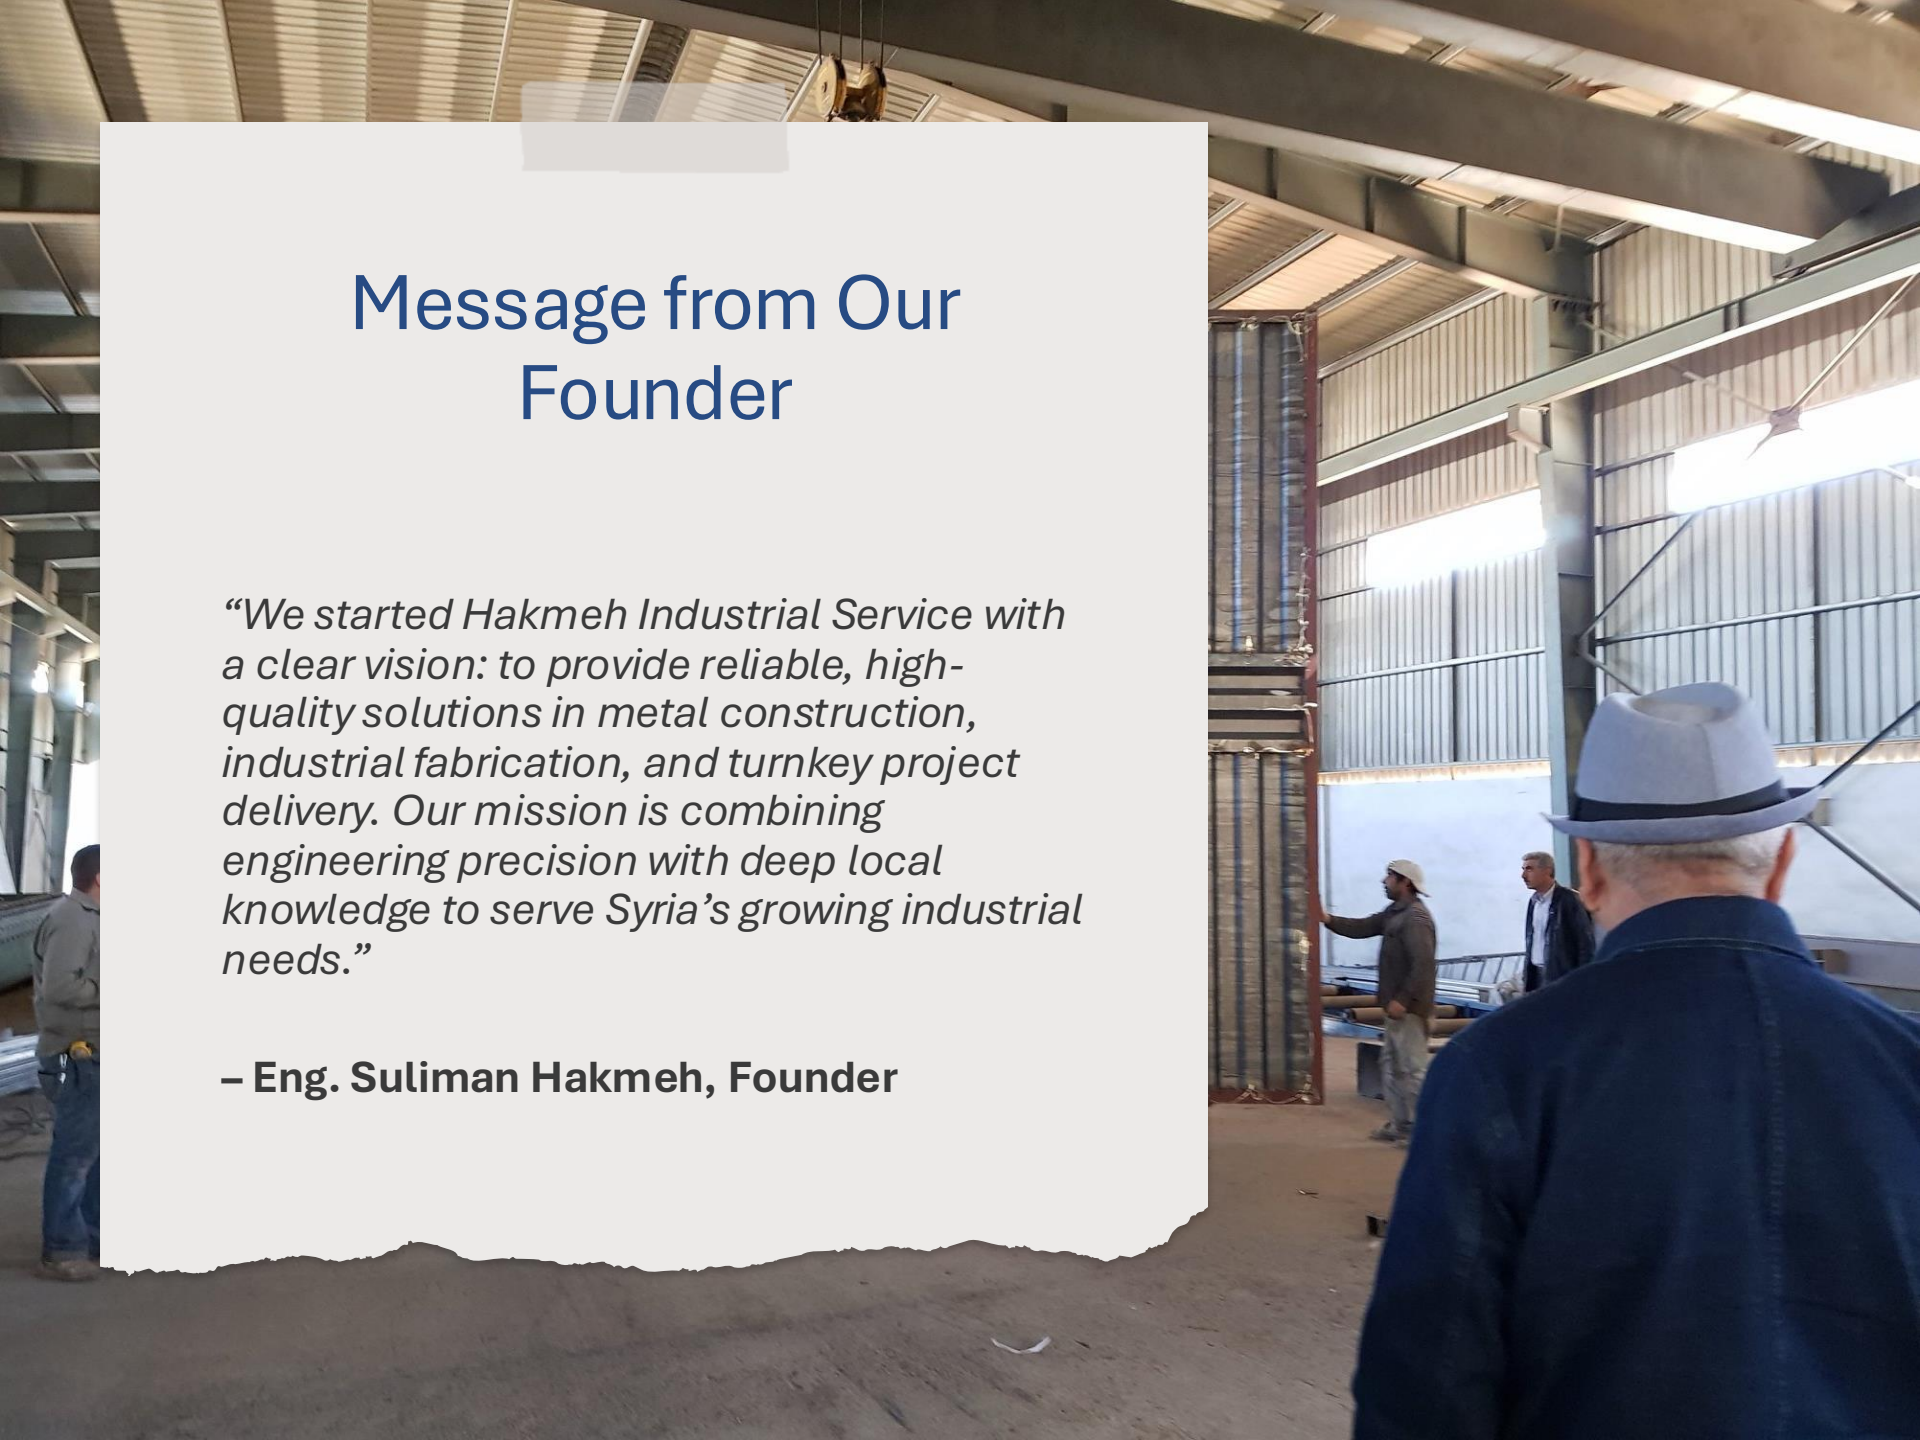

Over 35 Years of Quality &
Trust

Message from Our Founder

“We started Hakmeh Industrial Service with a clear vision: to provide reliable, high-quality solutions in metal construction, industrial fabrication, and turnkey project delivery. Our mission is combining engineering precision with deep local knowledge to serve Syria’s growing industrial needs.”

– Eng. Suliman Hakmeh, Founder

What We Do

Structural Steel: Design, fabrication and installation for industrial and commercial sectors

Turnkey Projects: End-to-end solutions from concept to commissioning with single-point responsibility

Process Equipment: Custom engineering for prefab buildings, wastewater treatment, chemical processing and steel smelting

Industrial Maintenance: Strategic maintenance and technology upgrades extending operational facility life

State-of-the-Art Facility

- **7 700 m² Fully Equipped Workshop**
Houses the latest cutting, continuous-welding, CNC bending and precision-assembly machinery under one roof.
- **End-to-End Production**
From raw-steel processing to final inspection, every step takes place on-site for maximum control.
- **Rapid Turnaround**
Lean workflows and dedicated production lines deliver fast lead-times—minimizing project delays.
- **Cost-Competitive Operations**
High utilization rates and process optimization translate into some of the most attractive pricing in the region.
- **Strategic Location**
Hassia Industrial City sits on key freight corridors, ensuring smooth inbound material flow and outbound delivery.

Proven Results, Satisfied Clients

- **Industry Leadership:** Over 500,000 metric tons of steel fabricated since 1990, representing one of the region's most significant industrial contributions.
- **Project Excellence:** 300+ successful projects delivered across the Middle East, with 85% of our business coming from repeat clients.
- **Quality Commitment:** We engineer our structures to comply with rigorous international standards: AISC, MBMA, AWS, ASTM

Our Approach to Excellence

- **Skilled Technical Team:** Engineers backed by experienced technicians delivering industrial fabrication expertise
- **Advanced Manufacturing:** Complete steel fabrication line with automatic cutting, continuous welding and precision assembly
- **Technical Precision:** Modern design software and quality control ensuring adherence to international standards
- **Production Efficiency:** Optimized workflow handling projects of any scale with competitive pricing and reliable delivery

Notable Projects

- **Kabour International Group, Syria:** Pre-engineered steel warehouses with complex designs, totaling 25,000 square meters of industrial space.
- **MAPNA Group, Tishreen Power Plant, Latakia:** Structural steel reinforcement and cooling tower enhancements, increasing operational efficiency by 22%.
- **Afamia Rolling Mill Factory, Saudi Arabia:** Full turnkey project establishing billet and rebar production facility with annual capacity of 350,000 tons.
- **Alwatanya Steel Rolling Plant, Homs:** Design and installation of overhead crane structures and supporting units, with load capacities up to 75 tons.
